- Control of SSOs / CMOM
- Designing with Maintenance in Mind
- Energy Concerns/Initiatives/Incentives
- Fats, Oils and Grease (FOG) Programs
- Flow Metering Techniques / Systems
- Geotechnical Issues
- Infiltration/Inflow
- Infrastructure Resilience
- Innovative Systems / Approaches
- Inspection Techniques / PACP / MACP
- Low Head/Pressure Sewer Systems
- Maintenance Equipment / Techniques
- Management Systems
- Master Plans
- Non Dispersible
- Odor, Sulfide and/or Corrosion Control
- Preparing for Emergencies
- Private Source I/I Control Techniques
- Public Outreach
- Regulatory Related Issues / Changes
- Rehabilitation Methods
- Safety
- Siphon Design and Maintenance
- Trenchless Technologies / Tunneling
- Wastewater Flow Control
- Wastewater Pumping Systems

To be considered, please complete and submit the on-line abstract submittal form at <http://www.newea.org/events/specialty-seminars-events/collection-systems-conference/>  
**Abstract deadline is Wednesday, March 30, 2016.**

Presenters are responsible for registration and travel fees for this event.

Questions may be directed to Ashley Dunn, Collection Systems Committee or the NEWEA office at 781-939-0908.
